

# Accessing Resource-Net Reports & Archive

Coke Market Report  
Coke & Anthracite Market Report  
Archive of Extracts from Past Reports \*

Each month (normally on the final Monday), subscribers should receive an email with the report attached. You can also find reports on the Login Page under **“Access to Reports and Archive”** on our website **www.resource-net.com**.

The most recent monthly report and archive can be accessed by entering:

- **Your Login Email:** this is the email address we have on record for your company's subscription (this might be different from your everyday email address, so if you get an error please check with us);
- **Your Login Password:** new subscribers (or if Login Email changes) must create this password on the Login Page by clicking on the link **“Create New Password”**. After entering your Login Email, you enter your choice of password in the box, **“Your Password”**, then re-enter the same in the second box and click on **“Save”**. You will then get an email with link to confirm the new password.

After logging in with Your Login Email and Your Login Password, you can download the report and save on your own system; or you can opt to email to yourself.

At the same location, you can access the archive of extracts from past reports going back to 2008. Extracts are organized under tags, primarily by geographic region.

The above process has been designed to be as intuitive as possible, but problems do sometimes occur for various reasons. In this instance, just contact us by email **andrew@resource-net.com**, and we will reply as soon as possible.

\*This archive does not contain the actual reports or prices.

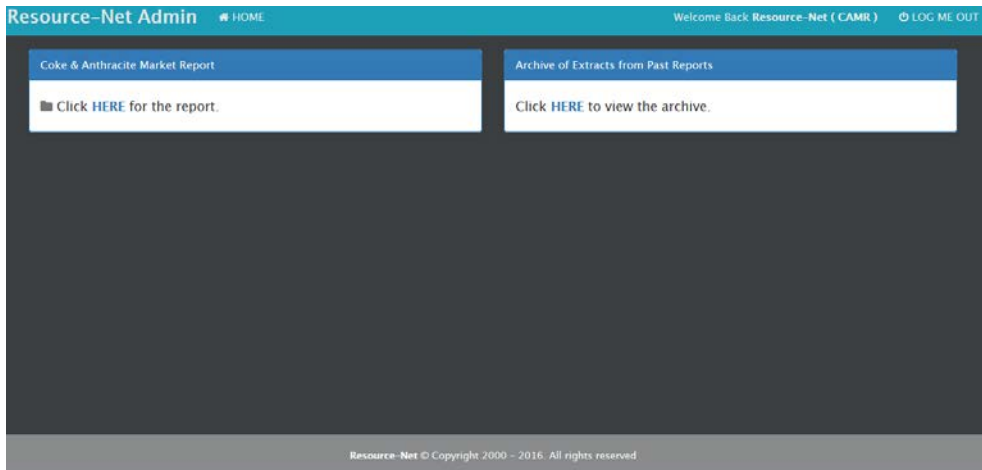

**Step-by-step guide is on following pages!**

# Step-by-Step Guide

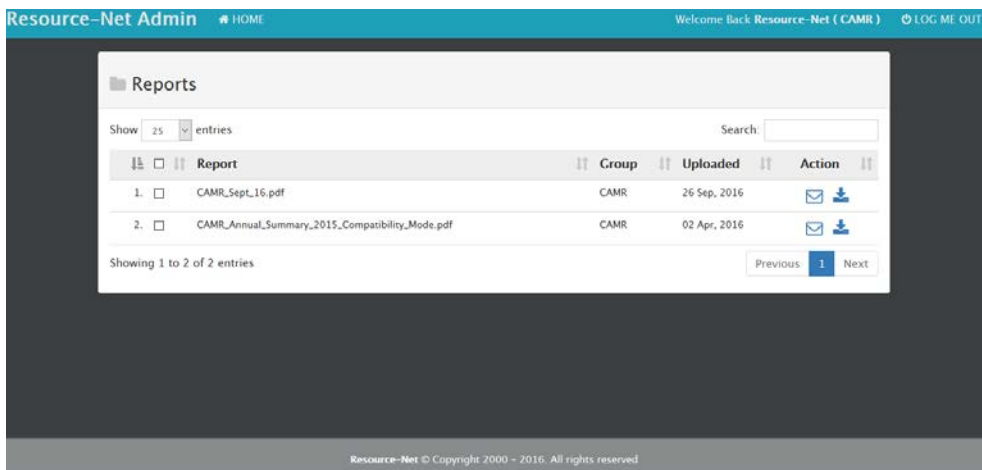

1/ Write in Login Email and Login Password. Click on “Log Me In”.

2/ Get access to page for reports (where it says “Click HERE for the report”). On other side, get access to the archive (see next page).

3/ Click on box on left side. Then under “Action” you can either click to receive report by email, or download immediately. The “Annual Summary”, produced at the start of each year, can also be found here.

## Step by Step Guide (cont'd)

4/ This is how the archive looks. As it says, click on the tags to see the extracts from past reports. Subscribers to “Coke Market Report” will not see the “Anthracite Market” section.
